

EASE Council members promote the practice of good ergonomics in the workplace by providing solutions across a broad spectrum of applications and industries. Activities include presentations at various industry events and development of non-commercial training materials. EASE also engages and collaborates with NIOSH and the academic community to enrich the group and enhance presentations and training materials.

WHY FOCUS ON ERGONOMICS?

- Top common cause of injury: Overexertion (29% of injuries)
- Most common causes of workplace injuries: sprains and strains (38%)

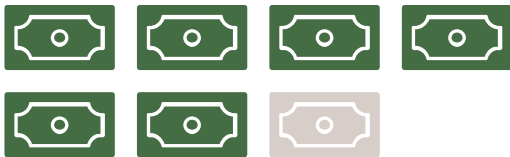

- Material Handling represents 32% of all workers' compensation claims
- Average days of work missed yearly: 71

WHY YOU NEED PROTECTIVE GUARDING

SAFETY INVESTMENT

OSHA estimates for every dollar spent on safety, six dollars is saved. That's a 600% ROI for investing in safety!

OSHA COMPLIANCE

Musculoskeletal injuries are cited in the **Top OSHA Ergonomic Injuries**

\$12.63 BILLION IN DIRECT COSTS

Total cost of overexertion injuries related to material & object handling

EASE Council MEMBERS

EASE members are committed to safety, innovation and providing ergonomics equipment and best practices for the supply chain industry and in the workplace.

EASE is focused on making work easier for people by improving the work environment.

Work Station Cranes

... AND MORE!

EASE OFFERS MEMBERS RESOURCES SUCH AS:

- Ergonomic Solutions - 16 companies, 100s of options
- Case studies - real problems and real solutions
- Videos - free best practice and ergonomic videos
- Large library of equipment images and content
- Trends, blog posts, and news articles
- Checklists
- Industry standards, guidelines, and best practices
- Ergonomic Lean Training - affordable
- Expert speakers and presentations
- Consultative services
- Ergonomic education events
- 100s of FREE industry best practice resources

EASE can give you the tools to protect people, places, and products to create a better work environment for your employees.

EASE offers assistance if you are looking to purchase ergonomic equipment, seeking industry-based research, or guidance.

Call, email, or visit www.mhi.org/ease today to find out more about ergonomic equipment, best practices and how EASE can help you to make the best choices for your business.
